

Swaminarayan Mahima Kendra
Chicago, IL

SMK is a non-profit Religious Organization with branches in the United States, UK, and India. Conducting meetings or training sessions were always a hard thing to do. So, we were searching for Video Conference solutions that didn't break the bank.

Searching for a robust video conference solution is a very time consuming task. But after coming across Trueconf and trying it out, it was a refreshing experience. The product just worked well across multiple continents and it was very easy to use.

At first, the thought of setting up our own server seemed difficult. But Trueconf is so easy we were really up and running in 15 minutes. Trueconf has really helped us increase our productivity and efficiency.

The best part is, Trueconf is priced so well and works even better than many other overpriced competitors.
