

# TrueConf Tracker

A convenient and cost-effective PC software for small to medium-sized meeting rooms to automatically track speakers using beamforming technology and any PTZ camera.

- Automatically tracks speakers in a room
- Uses microphone array beamforming
- Designed for Phoenix Audio® Condor
- Suitable for small & medium rooms
- Works with any PTZ or ePTZ cameras
- Free software for Windows: [trueconf.com/go/tracker](https://trueconf.com/go/tracker)

Phoenix Audio® Condor (MT600) microphone array

any PTZ camera
